Indian Cyber Security Solutions

in association with

Indian Institute of Cyber Security

Step into the cloud with Amazon Web Services (AWS) through our industry-driven training program, offered by Indian Cyber Security Solutions in collaboration with the Indian Institute of Cyber Security.

This program focuses on hands-on learning and real-world application, covering AWS core services, cloud architecture, deployment models, identity and access management, and cloud security best practices. Participants gain practical insights into how enterprises build, manage, and secure scalable cloud environments.

Designed for both beginners and professionals, this training empowers you with in-demand AWS skills and prepares you for real-world cloud roles and certification pathways.

Build a future-ready cloud career with AWS expertise and confidence.

About the Program

Cloud Computing

Network Security

In our extensive Azure training, we cover fundamental topics essential for mastering cloud computing. Our program offers practical experience in Azure services, infrastructure management, and cybersecurity practices. Explore the nuances of cloud architecture and deployment tactics, led by industry professionals. Whether you're a beginner in cloud computing or aiming to advance your expertise, our training equips you for the demands of today's digital environment.

Certification

After the completion of the course, candidates will get a joint certificate from Indian Cyber Security Solutions and Indian Institute of Cyber Security

Course Fee

Class Room Training	Online LIVE Training
<p>Course Fee: INR 14,000/- (One-time payment) Course Duration: 40 Hours 3 Months Training 2 Classes Per Week X 2 Hours Each Day Batch Timing Week End Classes Week Days Classes</p>	<p>Course Fee: INR 14,000/- (One-time payment) Course Duration: 40 Hours 3 Months Training 2 Classes Per Week X 2 Hours Each Day Batch Timing Week End Classes Week Days Classes</p>

Key Highlights

Why Choose AWS Training at ICSS

AWS-Certified Trainers

Learn from AWS experts who provide real-world insights and best practices. Receive guidance on the latest AWS trends and industry developments.

Hands-on AWS Labs

Practice with AWS tools and services in simulated environments.
Gain practical experience in deploying and managing cloud solutions on AWS.

Flexible Learning Paths

Customize your training with options for online or in-person classes. Choose the mode of learning that fits your schedule and preferences.

Industry-Recognized Certification

Earn an AWS certification to validate your cloud computing skills. Boost your credibility and stand out in the competitive job market.

Eligibility Criteria

Technical

Individuals with a Technical foundation can expand their expertise by enrolling in AWS courses

- A degree or diploma in a technical field such as Computer Science, Information Technology, Engineering is preferred but not always mandatory.
- Familiarity with fundamental technology concepts, programming languages (like Python, Java, or C++).
- Prior experience in software development, IT operations, system administration is advantageous.
- Understanding of basic cloud computing concepts and terminology will be helpful.
- Ability to analyze and troubleshoot technical issues is important.

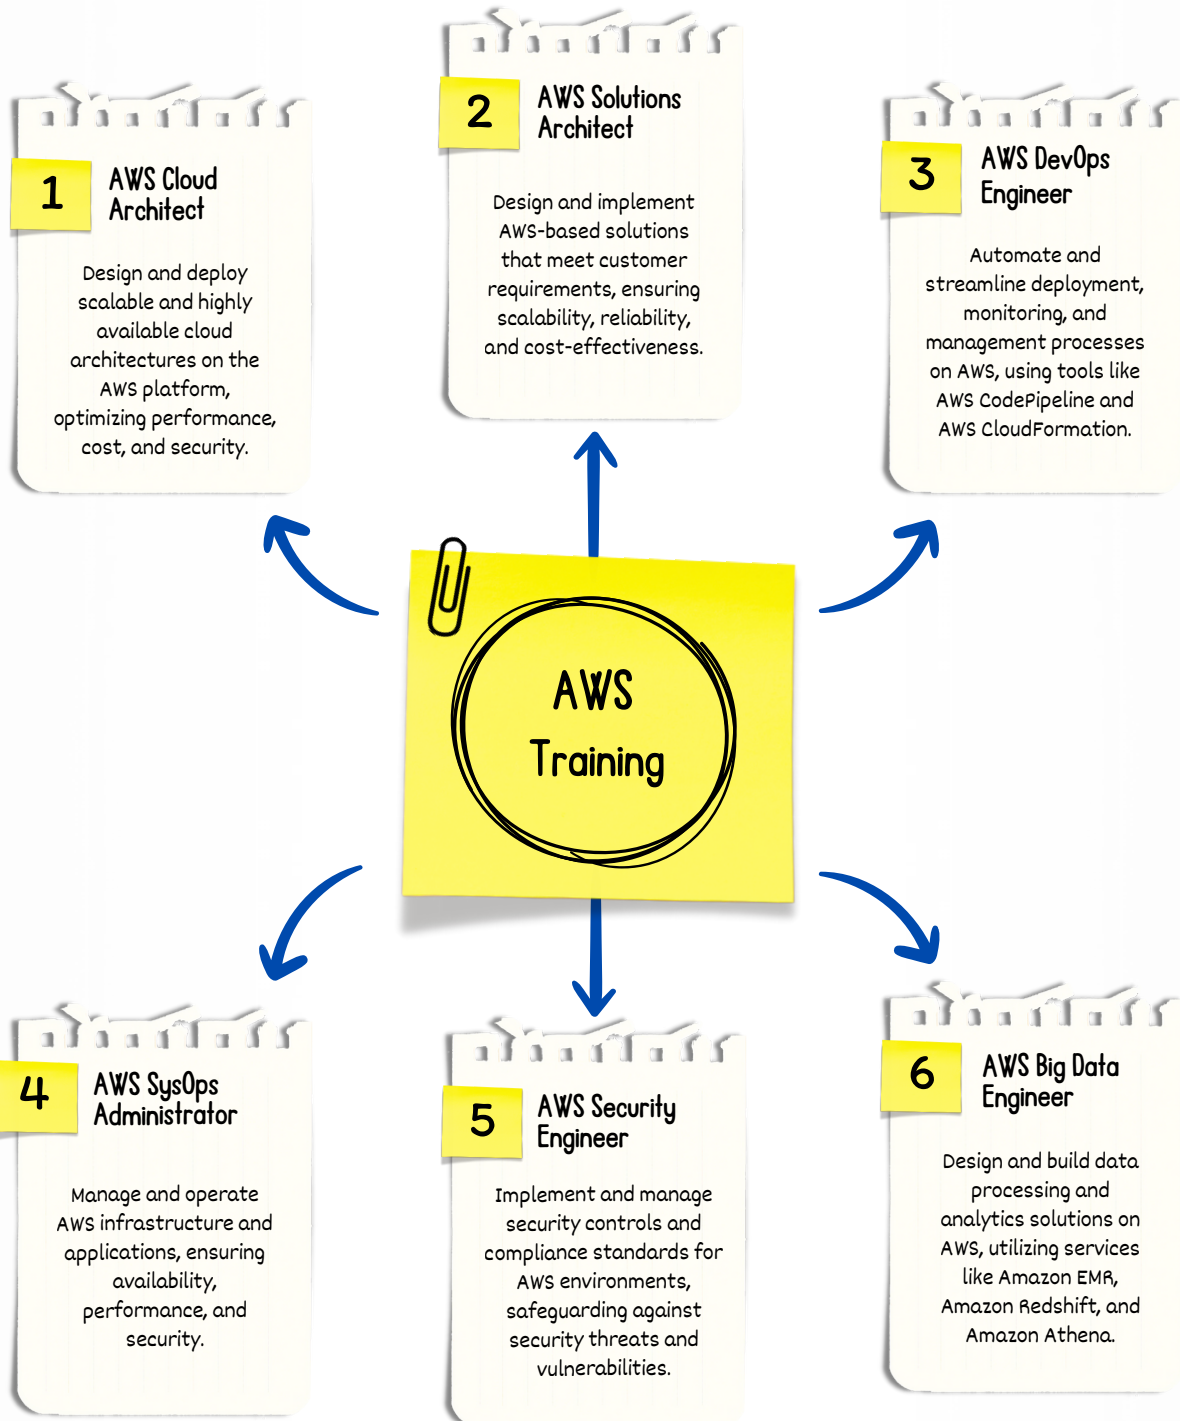

Non-Technical

Students from non-technical disciplines can pursue courses in AWS

- While a technical degree isn't necessary, having a degree in business, marketing, finance or any other field can be beneficial.
- Interest in technology, cloud computing and the AWS platform through self-learning or other means.
- Proficiency in using computers, navigating software interfaces and understanding common digital tools is essential.
- Ability to adapt to new technologies and learn quickly.

Job Opportunities

Trainers Profile

- **Blended Learning Focus:** ICSS AWS trainers prioritize blended learning for comprehensive cloud computing understanding.
- **Practical Approach:** Trainers integrate real-life AWS projects and case studies for hands-on learning experiences.
- **12+ Years Cloud Experience:** ICSS AWS trainers in Bangalore bring over 12 years of collective cloud computing experience.
- **Cybersecurity Professionals:** Trainers are cybersecurity experts, providing insights into cloud security practices.
- **Corporate Training Specialization:** ICSS AWS trainers offer tailored corporate training sessions aligning with industry standards.
- **Individualized Support:** Regular assessments and personalized attention ensure student progress.
- **Career Development Assistance:** Trainers assist with resume building, interview prep, and interpersonal skills development for career success.

Student Achievements

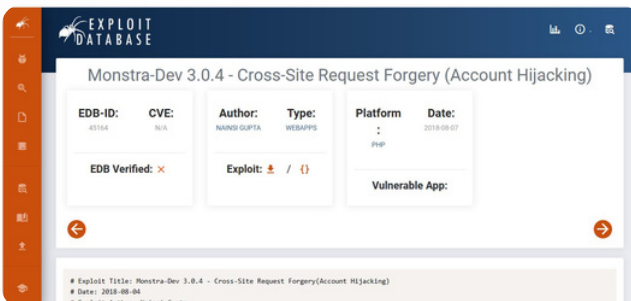

Rabsun Sarkar one of our students has found zero-day vulnerabilities in Google and in the Security Talent Website and also reported the same:

<https://securitydelta.nl/news/overview/hsd-responsible-disclosure-rabsun-sarkar-reported-a-vulnerability-in-the-security-talent-website>

Aniket Dinda is our student who has found out about Zero-Day Vulnerability and has been published on Exploit DB:

Our Hiring Partners

Other Collaborators

Parul University: Indian Cyber Security Solutions (ICSS) is delighted to join forces with Parul University in April 2022, marking the start of a five-year strategic collaboration focused on pushing the boundaries of cybersecurity education and research. ICSS will be investing its expertise and resources into this venture, equipping students with unrivaled skills for success in their field - ultimately igniting positive change across the industry through our steadfast commitment. We are brimming with anticipation over what incredible results will come from this partnership!

MAKAUT (ISKFGI College): With the ever-growing demand for skilled cybersecurity professionals. ICSS has teamed up with SKFGI College in a long-term partnership to establish an industry-leading program. For 10 years we will use our wealth of expertise and resources to ensure that students receive cutting-edge knowledge and skills from this collaboration- creating future leaders who can tackle any cybersecurity challenge. Our ambition is clear-develop tomorrow's talent today by empowering young minds into becoming successful digital citizens!

LOVELY
PROFESSIONAL
UNIVERSITY

Lovely Professional University: Indian Cyber Security Solutions has collaborated with LPU to organize cyber security workshops, Hackathons and Bootcamps. The students at LPU put their skills to the test, making for a truly inspiring event. LPU and ICSS have decided to organize more such events as these events help them to sharpen the skills.
