Indian Cyber Security Solutions

in association with

Indian Institute of Cyber Security

Indian Cyber Security Solutions in association with the Indian Institute of Cyber Security, is proud to offer a comprehensive Azure training program. Our Azure training program is designed for individuals of all experience levels, from aspiring IT professionals to Experienced tech professionals looking to expand their skillset. Whether you're seeking to enhance your career prospects or transition into the cloud computing field, our program offers the perfect platform to achieve your goals.

About the Program

Cloud Computing

Network Security

This intensive 3-month training program, led by our experienced trainers, is designed to provide participants with comprehensive expertise and hands-on skills in the dynamic field of cloud computing. We have meticulously structured our course curriculum, encompassing vital modules like Virtual Networks, Virtual Machines, Websites, Cloud Services, and more. Whether you come from a technical or non-technical background, our Azure courses cater to individuals with varying levels of expertise. If you have a curiosity about technology and a willingness to learn, you are encouraged to join our program.

Certification

After the completion of the course, candidates will get a joint certificate from Indian Cyber Security Solutions and Indian Institute of Cyber Security

Course Fee

Class Room Training	Online LIVE Training
<p>Course Fee: INR 12,000/- (One-time payment) Course Duration: 40 Hours 3 Months Training 2 Classes Per Week X 2 Hours Each Day Batch Timing Week End Classes Week Days Classes</p>	<p>Course Fee: INR 12,000/- (One-time payment) Course Duration: 40 Hours 3 Months Training 2 Classes Per Week X 2 Hours Each Day Batch Timing Week End Classes Week Days Classes</p>

Key Highlights

Why Choose Azure Training at ICSS

Azure-Certified Instructors

Benefit from instruction by Azure-certified professionals with practical experience. Learn from instructors who have firsthand knowledge of Azure technologies and best practices.

Interactive Azure Labs

Apply your knowledge with hands-on exercises in Azure environments. Gain proficiency in building, deploying, and managing solutions on the Azure platform.

Convenient Learning Options

Choose between online or in-person training to suit your preferences. Opt for the mode of learning that aligns with your schedule and learning style.

Valuable Azure Certification

Obtain an Azure certification to demonstrate your proficiency in Microsoft's cloud platform. Showcase your expertise and increase your career opportunities in cloud computing.

Eligibility Criteria

Technical

Individuals with a Technical foundation can expand their expertise by enrolling in Azure courses

- Familiarity with computer systems, software and programming concepts is helpful.
- No formal experience required, but some exposure to coding or IT concepts is beneficial.
- Comfort with technology, logical thinking, and problem-solving abilities are advantageous.
- Willingness to learn and explore technical topics is important.
- Individuals interested in cloud computing and Azure services are encouraged to join.

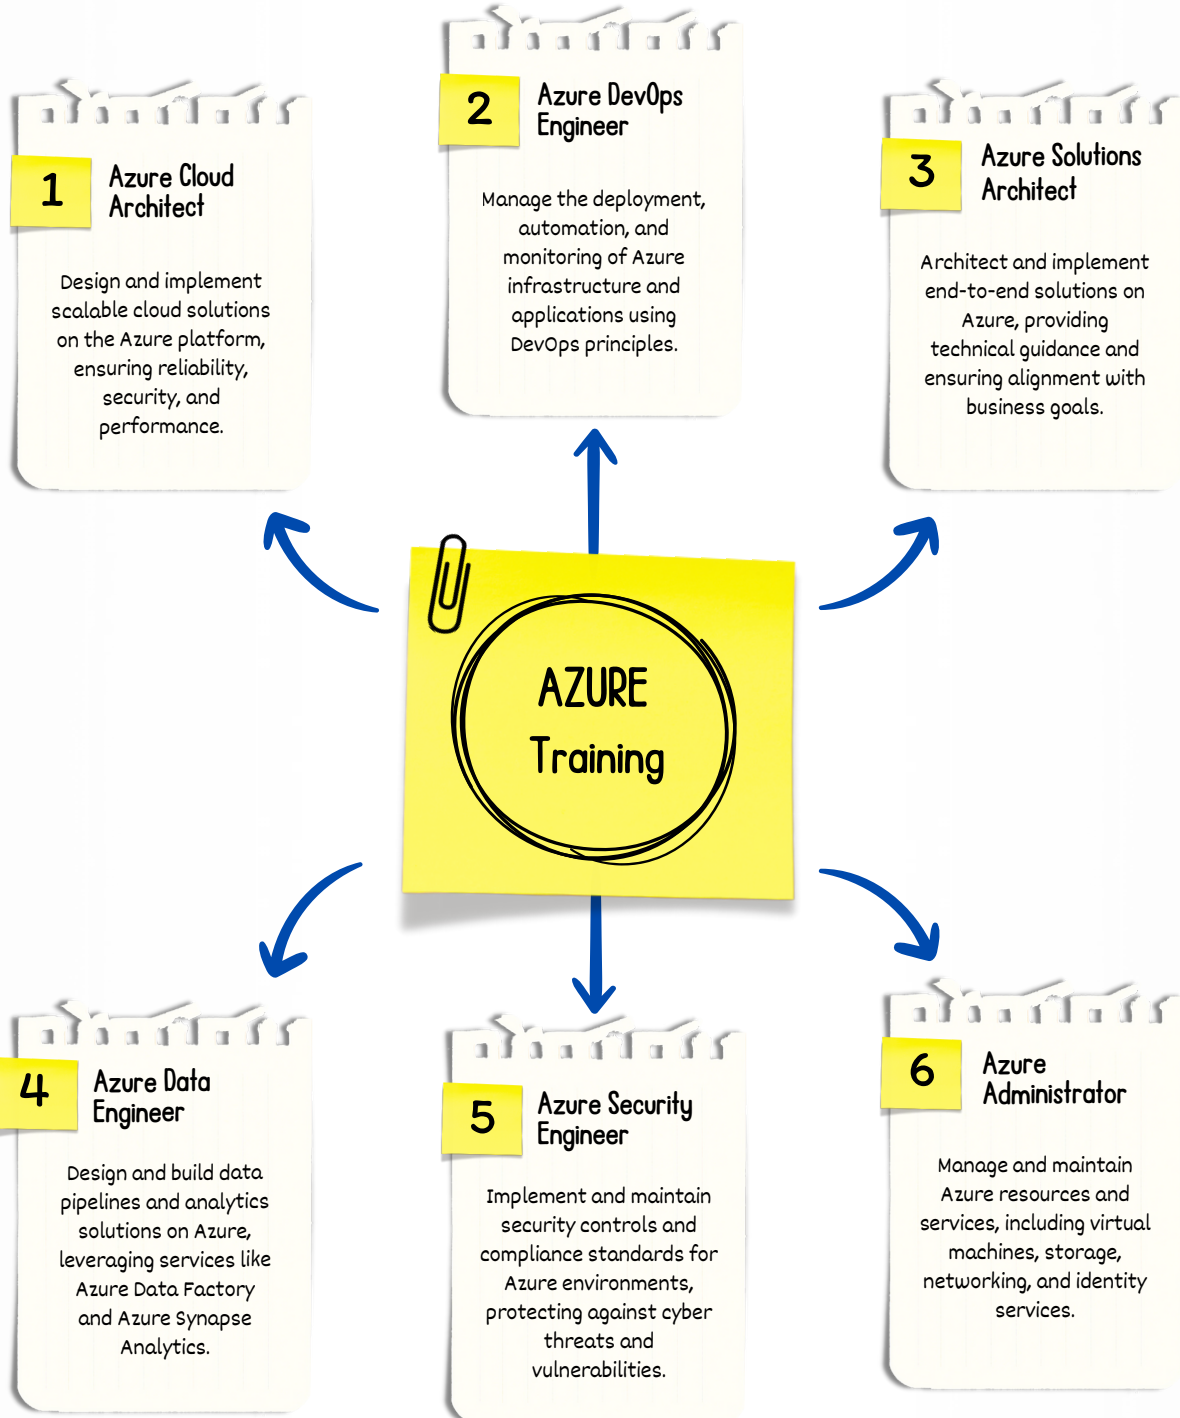

Non-Technical

Students from non-technical disciplines can pursue courses in Azure

- A keen curiosity about technology and the cloud is all you need to start.
- No coding or technical skills are necessary to begin the training.
- Comfortable using a computer and basic software applications.
- An open mind and a desire to understand new concepts.
- Good communication skills to collaborate effectively with tech experts.

Job Opportunities

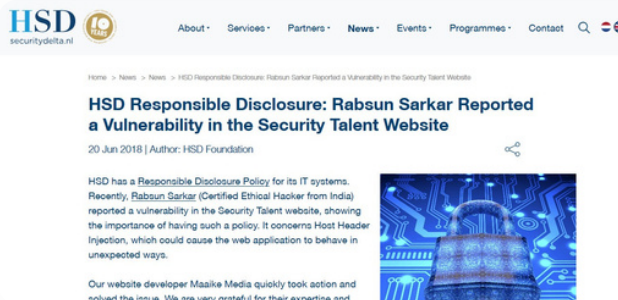

Trainers Profile

- **Blended Learning Focus:** Our Azure trainers prioritize blended learning methods to ensure a comprehensive understanding of cloud computing.
- **Practical Approach:** Hands-on Azure projects and case studies are integrated into the training curriculum for practical learning experiences.
- **12+ Years Cloud Experience:** Our Azure trainers bring over 12 years of combined experience in cloud computing, providing valuable insights and expertise.
- **Cybersecurity Professionals:** With a background in cybersecurity, our trainers offer insights into Azure's security practices and protocols.
- **Corporate Training Specialization:** We specialize in providing tailored corporate training sessions on Azure, aligning with industry standards and requirements.
- **Individualized Support:** Students receive regular assessments and personalized attention to facilitate their learning journey.
- **Career Development Assistance:** Our trainers offer support with resume building, interview preparation, and interpersonal skills development to aid in career advancement.

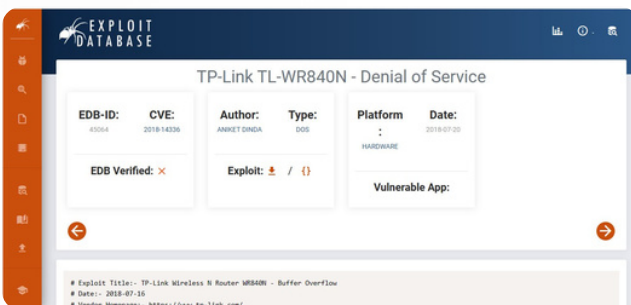

Student Achievements

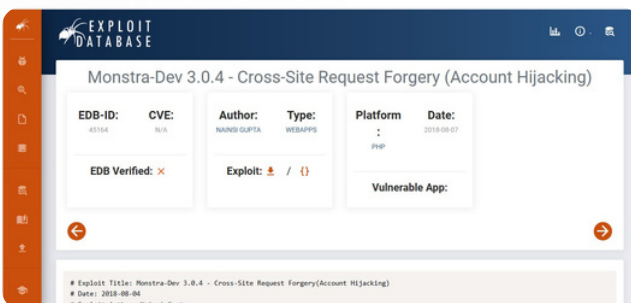

Rabsun Sarkar one of our students has found zero-day vulnerabilities in Google and in the Security Talent Website and also reported the same:

Our Hiring Partners

Other Collaborators

Parul University: Indian Cyber Security Solutions (ICSS) is delighted to join forces with Parul University in April 2022, marking the start of a five-year strategic collaboration focused on pushing the boundaries of cybersecurity education and research. ICSS will be investing its expertise and resources into this venture, equipping students with unrivaled skills for success in their field - ultimately igniting positive change across the industry through our steadfast commitment. We are brimming with anticipation over what incredible results will come from this partnership!

MAKAUT (ISKFGI College): With the ever-growing demand for skilled cybersecurity professionals. ICSS has teamed up with SKFGI College in a long-term partnership to establish an industry-leading program. For 10 years we will use our wealth of expertise and resources to ensure that students receive cutting-edge knowledge and skills from this collaboration- creating future leaders who can tackle any cybersecurity challenge. Our ambition is clear-develop tomorrow's talent today by empowering young minds into becoming successful digital citizens!

LOVELY
PROFESSIONAL
UNIVERSITY

Lovely Professional University: Indian Cyber Security Solutions has collaborated with LPU to organize cyber security workshops, Hackathons and Bootcamps. The students at LPU put their skills to the test, making for a truly inspiring event. LPU and ICSS have decided to organize more such events as these events help them to sharpen the skills.
