CEO & Founder - Indian Cyber Security Solutions (ICSS) & Indian Institute of Cyber Security (IICS)

Aabhishek Mitra is a leading cybersecurity expert, entrepreneur, and international trainer with over a decade of experience in cyber defense, AI security, and digital risk management. He has trained law enforcement agencies across borders, including Namibia's Security Forces under Interpol, government officials and police officers in South Africa, and cyber divisions in Bhutan.

He has also conducted specialized cybersecurity programs for prominent Indian organizations such as ISRO, LIC of India, Adani Group, Ericsson, Vedanta Group, and Lux Industries. In 2022, he successfully led an IoT security training at CSIR-CIMFR, Dhanbad, further strengthening collaborations with national research institutions.

Recognized in Silicon India and Innovative Zone Magazine for his impactful leadership and innovation, he has built ICSS and IICS into leading institutions for cybersecurity consulting, AI-driven VAPT solutions, and professional training.

With expertise in ethical hacking, cybercrime investigation, digital forensics, SOC operations, AI in cyber defense, and enterprise security strategy, he has trained thousands of students, professionals, and security teams across India, Africa, and the Middle East.

He holds a Diploma in Digital Marketing, bringing strong expertise in modern online growth strategies.

Today, he continues his mission to build the next generation of cyber defenders by combining ground-level experience, real-world threat intelligence, and advanced security training

Professional Journey:

Certified Ethical Hacker (EC-Council) and ISMS 27001 Lead Auditor.

- Led the 2016 Islamabad Airport hack operation, gaining international media coverage.
- Reported a security breach in Coal India's website, earning official acknowledgment.
- Exposed a COWIN OTP bypass issue, featured on Zee News Bangla.
- Created "Marg Darshak," an AI-based phishing detection tool recognized by officials and News Time Kolkata.

Media Coverage: He has been featured in leading media outlets such as AAJ TAK, The Telegraph, News18, ABP News, and Zee News for his expert insights on cyber crimes, online frauds, and cybersecurity solutions. His contributions have also been recognized in publications like Startup India and YourStory.

Recent Projects: In 2023, he led the development of SAVE (Secured AI-based Vulnerability Assessment Tool for Enterprise), which won the Most Innovative Cyber Security Product Award at the Global Business Summit. Under his leadership, ICSS has continued to grow and achieve remarkable milestones in the field of cybersecurity.

Interests and Hobbies: Beyond his professional endeavors, he is passionate about continuous learning and exploring new technologies. He enjoys activities that enrich his life and broaden his perspectives, such as reading, traveling, and staying updated with the latest advancements in AI and cybersecurity.

Looking Ahead: As he continues to evolve and grow, he is excited about the future and the opportunities that lie ahead. He is eager to connect with like-minded professionals, collaborate on innovative projects, and make a lasting impact in the field of cybersecurity.

Achievements and Recognitions:

Under his leadership, Indian Cyber Security Solutions (ICSS) has been recognized as one of the top cybersecurity service providers and training institutes in India, earning numerous accolades, including:

- Top 10 Cyber Security & Technical Training Provider in India (2020) by Silicon India
- Top 20 Tech Brands to Watch in 2021 by Business Connect India
- Top 25 Most Valuable CEO in India (2019) by Business Connect India
- Most Trusted Training & Certification Provider in 2021 by The Knowledge Review
- 10 Most Promising Cyber Security Consultants (2023) by SiliconIndia
- Most Innovative Cyber Security Product Award (2023) for SAVE at Global Business Summit
